— WHY WE SHOWED UP

# BUILDERS BACKING BUILDERS.

Egypt's insurance sector is rewriting itself in real time. We joined the AUC V-Lab Insurtech Challenge as the technology partner — bringing the engineering lens to early-stage ideas, helping founders move from problem statement to working prototype in 72 hours.

# FROM PROBLEM STATEMENT TO **PITCH.**

DAY 01

## DEFINE

### Narrowing the solution.

Teams locked their problem statements and core features, with 1-on-1 mentoring from GIG Egypt and an FRA session on the regulatory landscape.

DAY 02

## BUILD

### From journey to components.

RTG led a working session on mapping user journeys to shippable components — followed by sprint blocks and another round of V-Lab + GIG mentoring.

DAY 03

## PITCH

### Crafting the narrative.

Pitch coaching with Seif Hakim, a founder's-story session, final FRA + Orient mentoring, and the last build sprint before demo day.

— CLOSING PANEL

# Pioneering the future of Insurtech in Egypt.

A working session on what it takes to scale insurance technology locally — alongside AUC V-Lab, FRA Sandbox, AXA, GIG, and GIG Life Takaful.
